

OnSite ATM Refurbs

Q: What is an OnSite Refurb?

A: Replacement of all parts seen by the customer.

Q: What do I get?

A: Fascia, collar, FDK, shutters, windows.

Q: How long will my machine be down?

A: 2 to 4 hours depending on the model.

Q: Why do I want an OnSite Refurb?

A: You get the appearance of a new machine at a fraction of the cost.

Q: Why shouldn't I just replace my machine?

A: If you meet current network requirements, why replace it?

Q: Can I customize?

A: With a choice of 2 custom colors free... why not?
